

LIVING IRON

The finer details of an outdoor space are what really make it special.

Described as ‘jewellery for the home’, Living Iron’s handcrafted ornamental and architectural wrought iron features add instant personality and character to an internal or external space.

With expertise in balustrading, gates and ornamental ironwork Living Iron can custom-design a product that will suit your individual requirements and aesthetic, whether rustic, ornate

or sleek and modern. In addition, the company provides a complete service for residential or commercial gates, balustrading and ornamental ironwork, incorporating design, fabrication and on-site installation.

Director Craig Parton founded the company in 1998, and now has a team of 30 highly skilled staff under his direction. Their depth of knowledge and experience has ensured Living Iron maintains its

track record of producing high-quality products and finishes, with strong attention to detail.

It is this attention to detail that led the team to win the Master Builders Australia National Specialist Contractor of Year award in 2012 for the Granite Skywalk at Castle Rock in the Porongurups, and the MBA WA Subcontractor of the Year Award in 2003 for the Orangutan Enclosure at Perth Zoo.
